

COMPOSTING CONTAINER

Qualifying criteria apply:

- It is for single residences only.
- Only homeowners can apply.
- The property must include a secure garden area.
- The garden must include a minimum of 1 m² of open soil (for placement of the unit) and a minimum of 30 m² covered by lawn, plants or greenery.

Please note: This is an additional service at no cost to you.

Terms and conditions

- The unit must be used solely for the purposes of home composting.
- The safeguarding of the unit is the applicant's responsibility. Stolen and/or broken containers will not be replaced within the first five years.
- A maximum of one home composting container will be issued per qualifying property.
- The onus rests on the applicant to inform the City should your contact details and/or residential location change.
- The applicant may be called on to provide feedback, including estimated volumes composted, as and when required by the City. In order to monitor the usefulness of the unit, the project manager may request to see it, having made an appointment.

NB: Signing the statement on the application form acts as confirmation by yourself as the applicant that your property meets the qualifying criteria and confirms that you agree with the terms and conditions above.
